

There is only One Oil Heater for the houskeeper who wants the Best.

By best is meant thorough, allaround work and faultless efficiency down to the smallest detail.

This work must be performed day after day without fuss and fume and without smoke.

PERFECTION Oil Heater

(Equipped with Smokeless Device)]

No other oil heater in the world has attained the high heat efficiency and the sure smokeless performance reached by this splendid achievement of modern science.

Turn the wick up as high as it will go-there's no smoke-as low as you please, there's no smell—no fuss.

In raising, the wick is checked before it reaches the point at which it would smoke, by the new, quickly-removed

Automatic Smokeless Device

The flame is at its zenith of power, when the wick is locked, thus getting the

heater's full capacity.

The heat is as cleanly as that which comes from a steam radiator—and more certain. You may have it just where you want it—beside the window—in the library—in the bath room or in the living room.

Brass font holds 4 quarts of oil—burns 9 hours. Finished in nickel or Japan, Various styles and finishes. Damper top—cool handle—aluminum window

frame.

THESDAY EVENING, NOV. 21, 1909. Mistake In the Bill.

A gentieman, says Modern Women, who recently returned from a tour in Spain tells this story:

I left Seville on foot after a stay of a week and was twenty miles away when I was overtaken by the landlord of the hotel in which I had stayed. The innkeeper rode beside me for nearly an hour before he found courage to make known his business.

"'F the senor and God please," he began apologetically, "I made a mistake in his bill yesterday."
"How?" I inquired.

"I forgot to make a charge for his candles to light him to bed." "But it was moonlight, and I had no

"Then, senor, with the help of God, I forgot to charge you with the moon-

The charge amounted to 2 cents in American money, and he had hired an ass and ridden twenty miles to collect it. I was amused and astonished. Then I accused him of being a robber and offered him a cent to settle the He worked up a beautiful smile and held out his hand.

"I will take it, with thanks, senor," he said. "God will bless you for an

First Mortgage Bonds.

By reason of the insistence of many investors that their bonds be of "first" mortgage it may be said that the importance of the word "first" is dependent upon the circumstances, says Moody's Magazine. A bond may be first in fact. It may be so only in a relative sense in that it indicates the order in which the bond was put out by the issuing company or the use of the term "first" in the name of a bond, undesirable and loose though it be in such instances, may be upon the slight ground that the mortgage is indeed first on some part of the property. while on other parts it may have but a third or fourth claim. It is therefore obvious that the mere presence of this term in a title does not neces sarily make the bond an absolutely prior lien. It has been estimated that 95 per cent in number and 95 per cent in value of steam railroad "firsts" are first liens in name only.

The First Sleeping Car.

The first real sleeping car was built in 1864. It was called the Pioneer, and the builder further designated it by the letter "A," not dreaming that he would soon exhaust the letters of the alphabet. The Pioneer was built in a Chicago and Alton shop and cost the almost fabulous sum of \$18,000. That was reckless extravagance in a year when the best of railroad coacher could be built at a cost not exceeding \$4,500. But the Pioneer was blazing a new path in luxury. Without it was radiant in paint and varnish, in gay stripes and lettering. It was a giant compared with its fellows, for it was a foot wider and two and a half higher than any car ever built before. It had the hinged berths that are the dis-tinctive feature of the American sleeping car today, and the porter and the passengers no longer had to drag the bedding from closets at the far end of the car .- Outing.

Cape of Good Hope.

In 1487 Bartholomew Diaz sailed fa enough south along the western coast of Africa not only to descry but to double the Cape of Storms, as it was then called, and as the coast was as certained to run toward the northeast the prospect of success in the direction of India seemed now so clear that the Portuguese monarch renamed the cape "Cabo de Boa Esperanza," or Cape of Good Hope. The "good hope" was realized in 1498 by Vasco da Gama, who, doubling the southernmost point of Africa, sailed on to Calleut, thus opening up the long dreamed of route to India.

He Wasn't Glad.

Steve Long is noted for attending to his own business and saying very little about it. One morning an iquisitive neighbor met him returning from the woods with his gun over his shoulder. "Hello, Steve! Where hev ye beena-shootin'?"

"Yep." "What ye been a-shootin'?"

"Dog. "Yer dog? My! Was he mad?" "Waal, he didn't look so danged well pleased."-Everybody's Magazine.

The Blind Leading the Blind. Neither Mabel nor Willie has quite mastered the intricacles of English pronunciation, but each delights in correcting the other's mistakes. Last Sunday, while the family was at din-

ner, Mabel said; "Please pass the dravy." Willie saw his chance and quickly

exclaimed: "Well, Mabel! If I touldn't say dravy I'd say drease." - Woman's Home Companion.
